

Senior Lecturer: Dr Kentse Motsetse (DEng, MTech, BTech)

Tel: (+27)016 950 9928

Email: kentset@vut.ac.za

Campus: Vanderbijlpark Campus

Bio: Dr Kentse Motsetse is a Senior Lecturer in the Department of Chemical and Metallurgical Engineering at the Vaal University of Technology. She holds a Doctor of Engineering Degree in Metallurgical Engineering from the Tshwane University of Technology. Dr Motsetse has 3 years' industrial experience in coal, iron ore and mineral sands. With over 10 years' experience in academia, she has worked as a laboratory technician, lecturer, and researcher. Her expertise in mineral processing and hydrometallurgy have seen her develop research projects in the metal and mineral beneficiation from low grade resources including nickel deposit overburden and steel slag. Through the research projects, she has managed to supervise/co-supervise 1 doctoral and 4 master's degree students. She has published a total of 13 conference and journal papers.

Qualification and Institution: DEng (Metallurgical Engineering) (TUT), MTech (Metallurgical Engineering) (TUT), BTech (Metallurgical Engineering) (TUT), NDip (Metallurgical Engineering) (TUT)

Area of expertise: Mineral processing, Hydrometallurgy
